**Re: United States v. Kelvin Marte
18 CR 789 (LGS)**

LORNA G. SCHOFIELD
UNITED STATES DISTRICT JUDGE

Dear Judge Schofield:

I write to request that the Court terminate Mr. Marte's supervised release, effective today, October 6, 2023. When the parties were before the Court on August 1, 2023, the Court imposed a sentence which included a special condition of supervised release that Mr. Marte must "participate in a residential drug treatment program for a period of one month." See Transcript, August 1, 2023, at 22, attached as Ex. A. After imposing the treatment condition, the Court added the following:

If you finish that, I will entertain an application to terminate your period of supervised release, and then you can be done with this case. But that means you have to do the drug treatment, the residential drug treatment. That means you have to show up, not leave. But if you do that, for just one month, then we can all be done with this. Ex. A at 22-23.

On October 1, 2023, Mr. Marte successfully completed one month of residential drug treatment. His current term of supervised release is set to expire on October 24, 2023. His original five-year term of supervised release would have expired on October 18, 2023.

At this time, in light of Mr. Marte's successful completion of residential drug treatment, I ask the Court to terminate supervision effective immediately.

I have reached out to the Government and Probation for their position on this request and am awaiting response.

Respectfully submitted,
